APPLICATION FORM

**ELECTRICITY SAFETY
(STRAY CURRENT CORROSION) REGULATIONS 2009**

Reference Number (For Office Use Only)

Applicant's Name -

of

- applies for permission to (a) INSTALL ONLY
- or (b) OPERATE
- or (c) INSTALL AND OPERATE

A CATHODIC PROTECTION SYSTEM FOR THE PROTECTION OF A METALLIC STRUCTURE IN CONTACT WITH GROUND OR WATER.

(Cross out conditions that are not applicable) and provides the following details:

1.1 Name and address of the owner of the proposed cathodic protection system, together with contact person.

.....
.....
.....

1.2 Name and address of the consultants, if any, engaged by the owner with respect to the cathodic protection system.

.....
.....
.....
.....

1.3 Description of structure to be protected.

.....

1.4 Drawing Reference Number (if applicable)

.....

1.5 Location of System (including locality, nearest cross street, postcode and Melway Ref.)

.....
.....

- 1.6 Proposed date of operation -
- 1.7 Proposed operating current -amperes
- 1.8 Maximum structure voltage to copper/copper sulphate half cellvolts
- 1.9 Type of system: Impressed Current (IC)/Galvanic Anode (GA).
- 1.10 List the owners of all other structures likely to be affected and the person advised.

OWNER	PERSON CONTACTED AND DATE

- 1.11 A composite map relating to the above has/ has not been forwarded with this application.
- 1.12 A drawing detailing the installation has / has not been forwarded. This must include a circuit diagram indicating the facilities provided for interrupting the cathodic protection current for test purposes.

1.13 The fee for this application, inclusive of GST, is included

total output of up to & including 250mA	\$112.77
total output over 250 mA & up to & including 2 Amperes	\$282.26
total output over 2 Amperes -	\$637.42

NOTE: Cheques should be made payable to "Energy Safe Victoria" and sent with the applications to the above address.

Dated the..... day of20.....

Signature or seal of owner or owners' authorised representative
